

Reports

Commissioner and Community

- Building Inspector –Tom Gibb – 2 permits approved
- Fire Department – Rand Makowski – No report provided
- Zoning Board – Will meet June 20th
- Environmental Health – Gayla Gibb - The computer records were last updated in 2018. The paper records seem to have last been updated in 2019. The lists of who received letters in the last several years is on the computer. However, the follow-up to those letters cannot be found. I hope that my report to you next month will be complete once I receive the outstanding paper files from the previous EHA who has promised they will be forthcoming. Then I can finish updating the electronic files. There are nine (9) addresses that the County says have OWTS's, but we have no records of whether or not they actually do. Besides following up on the tank replacement requests, there seems to be six (6) systems needing an inspection this summer. A couple of them may be delinquent and the remainder have no current paperwork. When I get the paper files, there may be information on some of these. Currently, we have one NAWT Certified Inspector residing in Pitkin. Also, Jack Barker, the Turd Herder, has a copy of our inspection form and indicated he would not require pumping in order to do inspections unless pumping is indicated
- Streets – Jesse James Garetson – Mast Trucking has delivered a load of $\frac{3}{4}$ " road base to Main and 4th Street as well as a load to Main and 6th Street to be placed beside pavement on Main. United Gravel has offered a Pitkin price on 6 loads. I picked up 10 12"x20' PVC culverts at Ace in Gunnison for 10th & State and 12th & State. They were almost 2x the price of one year ago. Todd Adams will reimburse the Town for 4 of the culverts. Jim at Gunnison Valley Excavation helped Ed Herman and I replace the damaged culverts at 10th and 12th Streets, on State Street, they now have 40' of culverts instead of 20' on 66' wide streets. We currently have two culverts in inventory. I've picked up 12 treated 4"x4"x88 signage posts at Western Lumber, to replace those mostly destroyed by snow plowing last winter.
Due to the shortage of Mag-Chloride and Haz-mat CDL drivers, our dirt streets will not get treated until July 5th, unless a miracle occurs.
- Ditches – Vacant – Jesse James Garetson reporting - Without a Ditch Commissioner but with 6 men and 1 woman we got all 3 ditches running by Saturday evening. My helpers were: Eddy and Renee Balch, Ed Herman, Fred Archuleta, Brad Bouse, Lonnie Davis and Mike Finley. Also, thank you to Jim Dunn, Charlie McDaniel, Tom Gibb and the New boys. They cleaned the ditches in front of their properties. Gunnison Valley Excavation, Ed Herman and Jesse James Garetson cleared about 7 blocks of ditches on 5/23-5/24 and hauled the clean-out to 9th Street and 1st & Quartz Lane intersection.

- Cemetery – Mark Rossmiller – Cemetery gates are open and the flag is up for the season. On Memorial Day, flags were placed at veterans' gravesites. No services are planned at this time and no new plots have been sold.
- Town Hall – Garry Winget – The Town received a grant in the amount of \$26,824. The Town will match
- Parks and Rec – Vacant – No report
