Pitkin, CO 81241  
Re: Letter for Grant Support: GVH E.M.S.

To whom it may concern,

Thank you for allowing the town of Pitkin the opportunity to offer a letter of support for the Gunnison Valley Health system in receiving these grant funds. The Town of Pitkin is a remote community in Gunnison County that relies heavily on the knowledge, professionalism, and efficiency of our local Gunnison Valley EMS. The team in Gunnison not only offers support and training for our local volunteers, they also strive for excellence in the field. The challenges facing emergency medical services in remote locations surrounding Pitkin are daunting—from routine medical difficulties, altitude complications and search and rescue situations, to medical emergencies and accidents due to the recreational-use of our neighboring National Forrest. These are historically met with vigilance and tenacity. Gunnison Valley EMS desires to acquire a suitable vehicle for their pursuit of excellence in our valley. The receipt of funding for such vehicle would directly impact our community in a positive way, and we proudly offer our support!
