

Reports

Commissioner and Community

- Building Inspector –Tom Gibb (Interim) – One fence permit and one accessory building permit have been issued.
- Fire Department – Rand Makowski – No report
- Zoning Board – Jesse James Garetson – The Zoning Board has had very little activity. One application for an accessory building permit in and one permit request for a fence. With no other business, we are not planning on having an August Zoning Board of Adjustment meeting.
- Environmental Health – Cyndi Wick – 722 Aspen Lane, Pitkin, had the OWTS Pumped and Inspected on May 17, 2021 per Alpenglow Septic Inc. I received notice (certified from Owner) that was mailed to me on July 14, 2021. The OWTS inspection shows system as ACCEPTABLE.
- Streets – Jesse James Garetson: The rains have brought many potholes back to life that I have been patching. I've also been doing some repair work on River and Mesa Streets up above Town toward Powder House.
- Ditches – Vacant – Report given by Jesse James Garetson: Fred Archuleta has continued to do a great job of monitoring the ditches and keeping them clean and flowing. None of the Town's equipment that I have restored has been borrowed by any residents to clean up their sides of the ditches so it is available with fuel.
- Cemetery – A workday was held on July 19. 12 people attended including 7 Board members and 5 volunteers from the community. Activities included removal of old, downed fencing, mowing lanes, trimming around markers and trimming trees. Grounds are in generally good condition. The most pressing issue is construction of new perimeter fencing, and the Board would like to have another workday this season for the purpose of beginning new fence construction. Remembrance Wall construction continues slowly. The recent frequent and heavy rains have been desirable for easing the serious drought conditions but have not helped with Wall construction. Recently, there have been 2 lots sold and 3 internments. Next regular Board meeting is scheduled for August 10. Notice of the meeting has been posted on all regularly used sites.
- Town Hall – Garry Winget – No report
- Parks and Rec – Sara Lamar – I purchased a push mower that has arrived and works great. I've also ordered bike racks that we're still waiting on. Volunteers and I are exploring the process for obtaining permission to develop the wetlands located downstream and out of Town.
