r.e. – Trenching at Main Street

To whom it may concern,

As part of the construction for the Pitkin Hotel, we will be required to place a leech field at the newly purchased property across the street from us. In order to do this, we will need to trench Main Street to install the septic drainage pipes. This process will require that traffic is temporarily detoured for approximately 8-10 hours and also require that the water flow at the ditch will need to be halted (if it is not already shut down for the winter)

After the installation of the pipes, The Pitkin Hotel will be responsible for any patchwork of the road.

We will work together with the Town on the best suitable dates for this process. The guess is that it should be done in the next 45 days.

Thank you for your time and if you have any questions, please do not hesitate to call me at 228-326-2830.

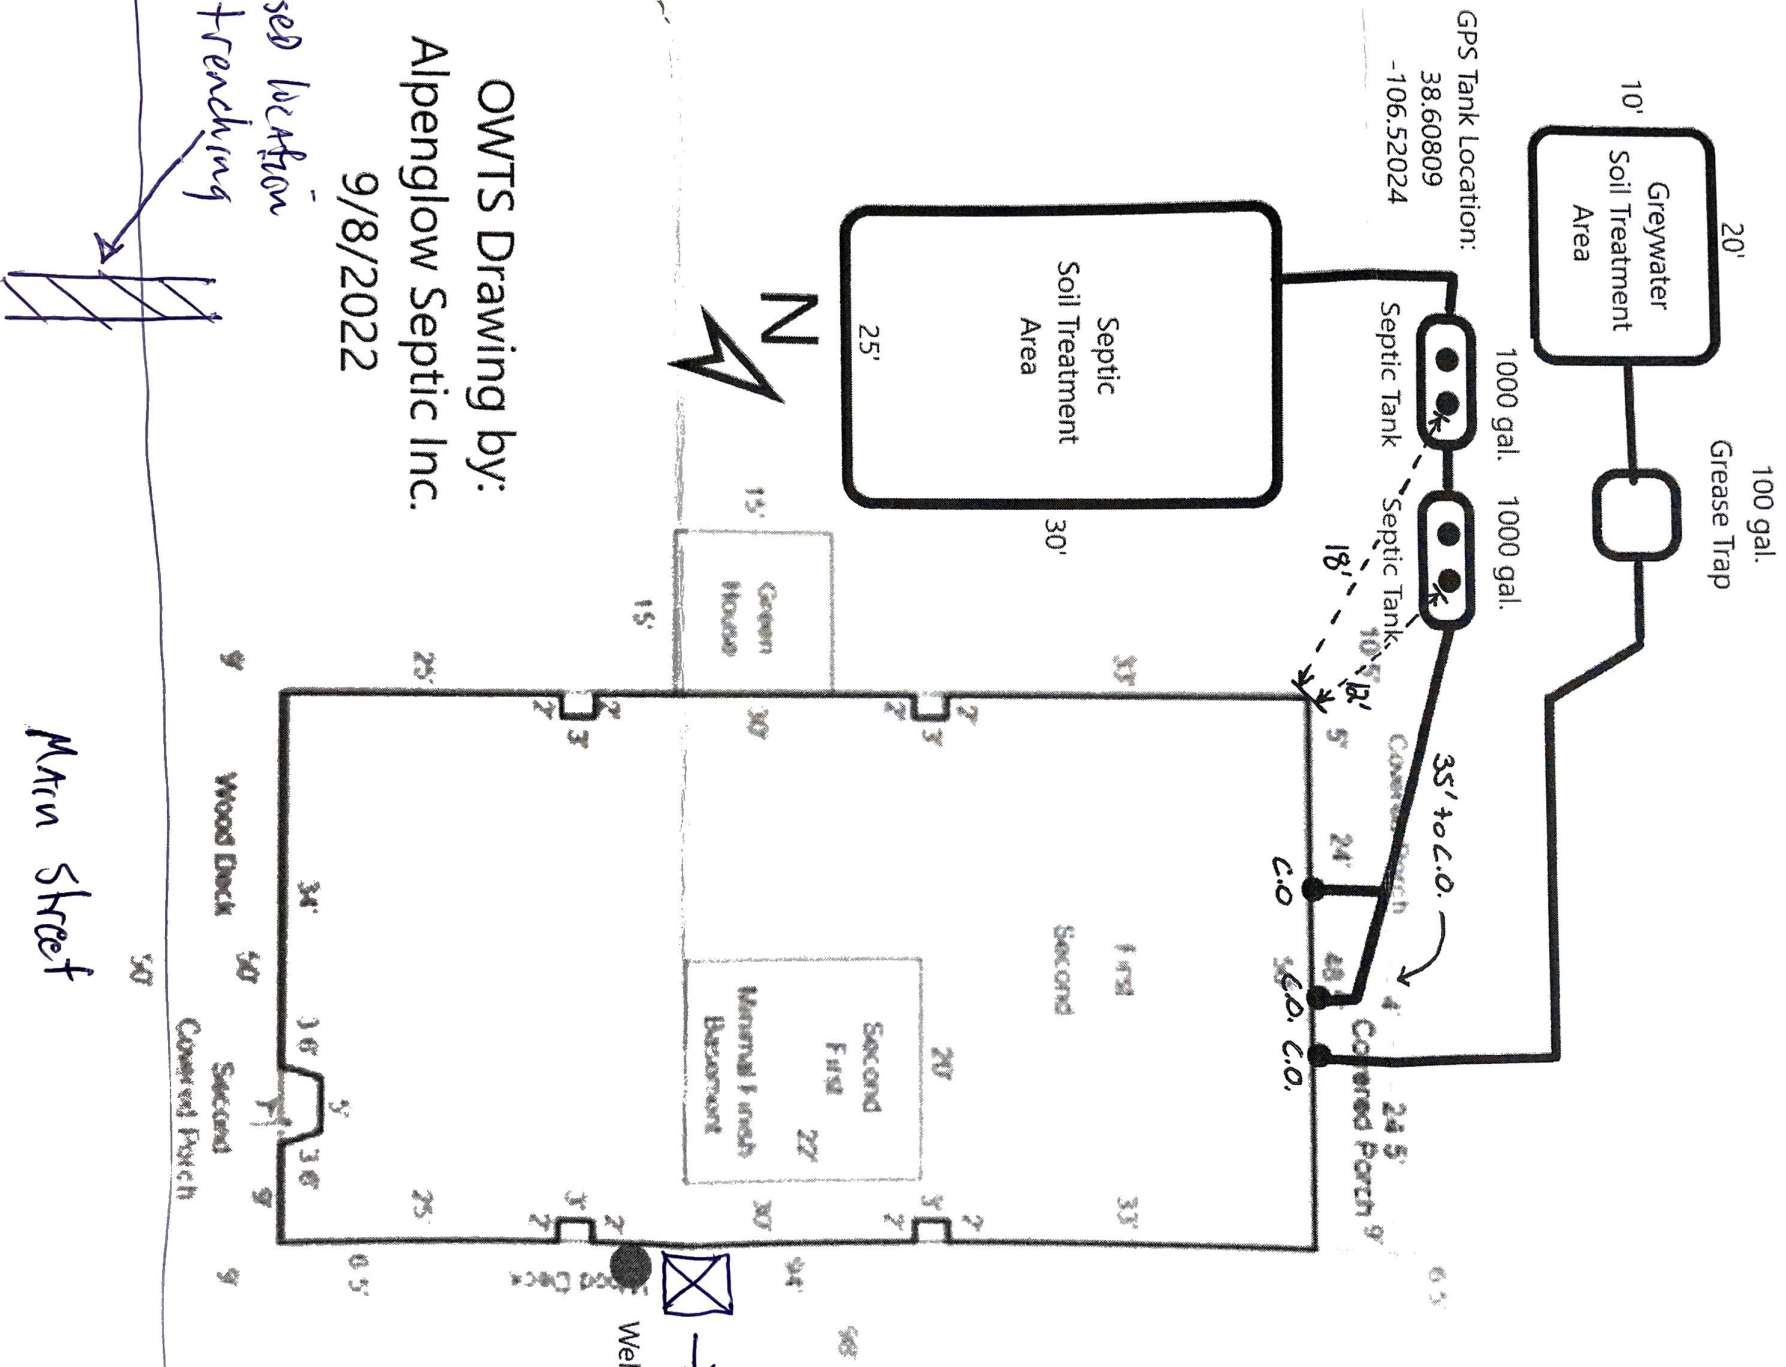

Sincerely,

A handwritten signature in black ink, appearing to read "Bob and Pamela Taylor". The signature is written in a cursive, flowing style.

Bob and Pamela Taylor, owners
